

FAST TRACK

Want to improve your math placement?

Then get on the FAST TRACK! (Summer 2011)

There are two Fast Track options. Option 1 is Basic FAST TRACK . This is a 20-hour *review* course, covering prealgebra and elementary algebra topics, that prepares qualified students to potentially improve their math course placement. Students should have a history of being successful in equivalent levels of math, although they may not recall enough information to place well on the assessment test. All students must take the assessment test before the first day of class (call 240-567-7459 for info). Option 2 is *Advanced* Fast Track, which is also a 20-hour *review* course, but covers elementary algebra and intermediate algebra topics. To take *Advanced* Fast Track, students must have earned an 'A' in MA090 or scored 55 or better on the assessment test.

Note: Placement level achieved from a Fast Track course is good only for the semester following the Fast Track course.
